## Literary Psychological Analysis of the Novel entitled "Laut Bercerita" by Leila S. Chudori

**Alya Selsa Meyriska**

Department of Indonesian Language and Literature Education, Universitas Lampung, Indonesia

---

**Abstract:** Literary work contains meaning in it, not just a form of work that contains aesthetics. Poetry means imaginative literary works, the words used are arranged using aesthetic and simple words, readers who do not have the knowledge of analyzing poetry will have difficulty understanding the meaning of the poetry they read. The writer is interested in analyzing the poem "Rahasia Hujan" by Heri Isnaini, because this poem has lyrics formed from a unique and simple language structure but has a broad meaning and makes readers interested in his work.

**Keywords:** poetry, mimetic, literacy psychological analysis.

---

### ▪ INTRODUCTION

The word "Literature" originates from the term "Shastra" which is a Sanskrit term. "Shastra" means guide, (shas) guide and (tra) vehicle. Literature contains aesthetics, which means a written work uses the deepest meaning. Literary works initially only took the form of writing, but over time literary works took the form of special illustrations. Literary works are works expressed by humans in the form of experiences, direct feelings and inspiration.

Poetry is an expression of what one thinks, expresses feelings, and incidents written down in a pen. Poetry is imaginative because the meaning of poetry is often misinterpreted so it is not easy to understand for readers who do not have the knowledge to analyze poetry, the words used in poetry look simple but are difficult to interpret, so they have a very broad meaning. The author makes the poem "The Secret of Rain" by Heri Isnaini into an object of research by deepening the understanding of the concept from a mimetic approach.

According to Pradopo (Pirmansyah & Anjani, 2018) explains that poetry is an essay that is bound by the number of syllables in each line, terms in each stanza, has rhyme and rhythm, and the number of lines in the stanza. (Logita, E., 2018) states that poetry is an expression, the cry of a person's heart, and the inner self of a poet through beautiful words, expressed on a piece of white paper which is represented by symbols and indications in using certain styles and expressions.

### ▪ METHOD

This research uses a narrative qualitative research method which is a process of collecting data in the form of various kinds of terms and various kinds of images. Qualitative research method means a research method that emphasizes analysis or descriptiveness. In the qualitative research process, the theoretical basis that is used more by researchers means things that are the subject's perspective as a guide, so that the research process is in sync with news that occurs in the field while conducting research. Qualitative descriptive research methods are a type of design and research design that is often used to examine a research object that is natural, in real conditions, and not artificially designed as when conducting an experiment. Descriptive means that the results

of the research will be described as clearly as possible according to the research that has been researched without drawing a conclusion according to the research.

#### ▪ **RESULT AND DISCUSSION**

The poem "The Secret of Rain" tells the story of someone's longing. The word rinyai dripped one by one which means that his longing will be relieved slowly and deliciously which will give coolness to his heart. Rain is water, and water will not be hot, therefore "rain" symbolizes that every drop of rain will cool his heart. It's the same with longing, the longing he feels will slowly be relieved by the coolness of the raindrops.

The second stanza in the poem "The Secret of Rain" the author says that the rain will meet you tomorrow. "Meet you" means that someone who will meet you is still represented by rain because it is not yet known who that someone is, someone who misses you is still hiding behind the word rain. The author indicates that the gentle breeze will cool the longing heart so that it is comfortable with the longing that is hitting. The calm in kama indicates love that is hiding behind the rain, the raindrops indicate that someone who longs for them prioritizes peace rather than just the word love.

The third stanza in the poem "The Secret of Rain" is about the author's thoughts which are poured into the poem. In the words "I will meet you" the author emphasizes that the I is not hiding behind the word rain, this word already has a clear meaning that the character I will meet someone he misses, this word shows that he is not talking about the rain, but about himself. Rain that misses the clouds means that I miss someone like rain that misses the clouds because rain and money are interrelated, every drop of rain that falls will always be a cloud that accompanies the rain to drop its water, clouds will always accompany the rain as if the rain only belonged to the clouds.

#### ▪ **CONCLUSION**

Puisi merupakan luapan atas apa yang dipikirkan, meluapkan perasaan, dan insiden yang dituliskan pada sebuah goresan pena. Puisi bersifat imajinatif karena makna puisi sering disalah artikan sehingga tidak mudah untuk dipahami bagi para pembaca yang tidak memiliki ilmu menganalisis puisi, kata-kata yang digunakan dalam puisi terlihat sederhana tetapi sulit diartikan, sehingga memiliki makna yang sangat luas. Berdasarkan hasil analisis peneliti pada puisi "Rahasia Hujan" Karya Heri Isnaini dapat ditarik kesimpulan bahwa puisi ini menceritakan tentang pesan kerinduan seseorang terhadap pujaan hatinya. Rindu disampaikan melalui setiap syair/bait kata yang diungkapkan oleh penulis terlihat sederhana tetapi tidak mudah memahami maksud dan makna yang ingin disampaikan. Puisi ini dibuat Heri Isnaini dengan menghubungkan alam sekitar yaitu hujan.
